EXPERIENCE

Cigna

Software Developer, Enterprise Architecture

Philadelphia, PA
October 2017 — Present

- Develop low-latency, fault-tolerant applications with Elixir to automate security processes for internal applications

Susquehanna International Group

Frontend Developer, Proprietary Trading Services

Bala Cynwyd, PA
March 2017 — September 2017

- Developed full-stack web application and visualization layer for a back-end framework testing Enterprise-wide services that aggregates data from over 1000 devices and 16 types of testing
- Created a performant, real-time dashboard in ReactJS responsible for communicating critical trading operation status
- Automated manual processes and data look-ups using Python and web technologies in order to quickly retrieve information during production issues

Cigna

Web Developer, Big Data Analytics

Philadelphia, PA
March 2015 — September 2016

- Developed new features on a front-end analytics web application with AngularJS; designed and coded a custom event logging system used to track user behavior; followed test driven development standards
- Implemented a ChatOps messaging bot that connected to internal developer applications; used Ansible to automatically configure and deploy new servers; influenced ChatOps best practices for the technical community
- Authored and delivered two technical talks to the IT community; web lead on conference committee with senior directors

Cigna

Project Manager, Group Insurance IT

Philadelphia, PA
March 2015 — October 2015

- Project manager and implementation lead on a software project to help 120 people track updates on a SDLC project
- Authored a proposal on using the NodeJS framework; selected to present at the First Annual Cigna Technical Conference
- Proposed and developed a pilot web application for the Cigna Technical Conference to create a new channel for collaboration and agenda sharing for over 800 remote participants

Drexel University

IT Support Technician, LeBow Technical Services

Philadelphia, PA
October 2013 — March 2015

- Resolved incidents and performed hardware and software repairs for over 100 faculty and Ph.D students

AWARDS

Cigna Champion Award
