Tools: Microsoft SCCM, Powershell, Terminal, SSH

Web Development: HTML, CSS, JQuery, Git, Composer

Administrative: Microsoft Access, Excel, Word, LibreOffice

Frameworks: Bootstrap, Jekyll, Wordpress

PROJECTS

Coopswitch github.com/jmaslin/coopswitch May 2014 - Current

- Developed using vanilla PHP and MySQL along with Twitter's Bootstrap framework for frontend elements
- Switched Javascript functions to JQuery for a more intuitive user experience and more readable inline documentation
- Intended for use by Drexel University's Steinbright Career Development Center so students can easily switch co-op cycles

EventMe github.com/jmaslin/eventme October 2014 - Current

- Created a ticketing solution that uses student ID cards instead of actual tickets for venues to improve event access speed
- Constructed the web app to make efficient AJAX lookups to lessen network burden and bandwidth requirements
- Integrated with existing payment processors for greater flexibility with end users

Merecraft merecraft.com April 2013 - August 2014

- Established a 400 person community and coordinated staff members who served as in-game moderators
- Optimized and supported an unmanaged Linux sever running a LAMP web server and backups utilizing Amazon Cloud
- Used a payment solution with streamlined Bitcoin integration for a higher customer conversion rate

EXPERIENCE

Desktop Support Technician at LeBow Technical Services October 2013 - Current

- Resolve technical issues for LeBow College of Business faculty and staff through tier one and two support
- Research and document uncommon hardware and software issues that are encountered
- Support SMART-enabled classrooms by fixing time-sensitive bugs
- Facilitate upgrades through Microsoft SCCM to deploy encrypted operating systems and updated software

Peer Leader at LeBow College of Business June 2014 - December 2014

- Mentor a class of incoming freshmen in the business school and serve as a classroom leader
- Guide students in their first term by staying accessible and offering academic assistance
