Experience

Cigna   Philadelphia, PA
Software Developer, Enterprise Architecture   October 2017 — Present

- Developed low-latency, fault-tolerant applications with Elixir to automate security processes for internal applications

Susquehanna International Group   Bala Cynwyd, PA
Frontend Developer, Proprietary Trading Services   March 2017 — September 2017

- Developed full-stack web application and visualization layer for a back-end framework testing Enterprise-wide services that aggregates data from over 1000 devices and 16 types of testing
- Created a performant, real-time dashboard in ReactJS responsible for communicating critical trading operation status
- Automated manual processes and data look-ups using Python and web technologies in order to quickly retrieve information during production issues

Cigna   Philadelphia, PA
Web Developer, Big Data Analytics   March 2015 — September 2016

- Developed new features on a front-end analytics web application with AngularJS; designed and coded a custom event logging system used to track user behavior; followed test driven development standards
- Implemented a ChatOps messaging bot that connected to internal developer applications; used Ansible to automatically configure and deploy new servers; influenced ChatOps best practices for the technical community
- Authored and delivered two technical talks to the IT community; web lead on conference committee with senior directors

Cigna   Philadelphia, PA
Project Manager, Group Insurance IT   March 2015 — October 2015

- Project manager and implementation lead on a software project to help 120 people track updates on a SDLC project
- Proposed and developed a pilot web application for the First Annual Cigna Technical Conference to create a new channel for collaboration and agenda sharing for over 800 remote participants
- Authored a proposal on using NodeJS; selected to present from over 100 submissions at the Cigna Technical Conference

Drexel University   Philadelphia, PA
IT Support Technician, LeBow Technical Services   October 2013 — March 2015

- Resolved incidents and performed hardware and software repairs for over 100 faculty and Ph.D students

Awards

Cigna Champion Award   August 2016
