**Web Development**: HTML, CSS, JQuery, Git, Composer

**Desgin**: Adobe Photoshop, Illustrator, Gimp

**Administrative**: Microsoft Access, Excel, Word, LibreOffice

**Tools**: Microsoft SCCM, Powershell, Terminal, SSH

**Frameworks**: Bootstrap, Jekyll, Wordpress

## PROJECTS

**Coopswitch**     github.com/jmaslin/coopswitch     May 2014 - Current

- Developed using vanilla PHP and MySQL along with Twitter's Bootstrap framework for front-end elements
- Switched Javascript functions to JQuery for a more intuitive user experience and more readable inline documentation
- Intended for use by Drexel University's Steinbright Career Development Center so students can easily switch co-op cycles

**EventMe**     github.com/jmaslin/eventme     October 2014 - Current

- Created a ticketing solution that uses student ID cards instead of actual tickets for venues to improve event access speed
- Constructed the web app to make efficient AJAX lookups to lessen network burden and bandwith requirements
- Integrated with existing payment processors for greater flexibility with end users

**Merecraft**     merecraft.com     April 2013 - August 2014

- Established a 400 person community and coordinated staff members who served as in-game moderators
- Optimized and supported an umanaged Linux server running a LAMP web server and backups utilizing Amazon Cloud
- Used a payment solution with streamlined Bitcoin integration for a higher customer conversion rate

## EXPERIENCE

**Desktop Support Technician at LeBow Technical Services**     October 2013 - Current

- Resolved technical issues for LeBow College of Business faculty and staff through tier one and two support
- Researched and document uncommon hardware and software issues that are encountered
- Supported SMART-enabled classrooms by fixing time-sensitive bugs
- Facilitated upgrades through Microsoft SCCM to deploy encrypted operating systems and updated software

**Peer Leader at LeBow College of Business**     June 2014 - December 2014

- Mentored a class of incoming freshmen in the business school and serve as a classroom leader
- Guided students in their first term by staying accessible and offering academic assistance
